Aden Yemen

LinkedIn • GitHub

Full Stack Developer specialized in ASP.NET Core and Angular, with experience in educational and e-commerce platforms. Skilled in SQL Server, Entity Framework Core, and RESTful APIs. Strong knowledge of Clean Architecture, CQRS, and SOLID principles, with a focus on building scalable, maintainable systems.

Education

Bachelor of Science in Information Technology at University of Aden, Aden, Yemen

October 2020 - October 2025

Grade: Excellent

Graduated with Excellent grade, GPA 91%. Developed strong knowledge in software engineering, databases, and web technologies. Graduation Project focused on building a School Management Platform using ASP.NET Core, Angular, SQL Server, and Clean Architecture, demonstrating both academic excellence and practical development skills.

Skills

Backend: C#, Entity Framework Core, Sql Server, RESTful APIs

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap

Tools / Platforms: Git / GitHub, Postman, Visual Studio / VS Code

Projects

Yemen Schools Management Platform • ↗

Developed a comprehensive multi-school management system using ASP.NET Core, Angular, and SQL Server. Applied Clean Architecture and CQRS patterns to ensure scalability and maintainability. Features include authentication, school management, student records, and academic year tracking.

Full Stack E-Commerce Platform • ↗

Developed a fully functional e-commerce platform for general products using ASP.NET Core Web API, Angular, and SQL Server. Integrated Stripe Payment Gateway for secure online payments. Implemented user authentication, product catalog, order management, and admin dashboard. Applied Clean Architecture, and SOLID principles to ensure scalable, maintainable, and high-quality code. The project demonstrates complete full-stack capabilities including frontend, backend, database, and payment integration.

FreeLink Platform • ↗

Developed Free Link platform that connects developers and clients using ASP.NET Core, Angular, SQL Server, and Entity Framework.

Languages

Arabic - Native

English - Conversational

Certificates

Build an app with ASPNET Core and Angular from Udemy

April 2025 • ↗

Build an e-commerce app with .Net Core and Angular from Udemy

June 2025 • ↗
